DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 1. Claims 1-22 and 61-71 drawn to a method of comparing metabolites of different samples classified in class 702, subclass 19.
 2. Claims 23-41 and 61-71 drawn to a method of treating organisms with different bioregulators and comparing metabolites of the organisms to assay for the presence of an association between the effects of the bioregulators, classified in class 702, subclass 19.
 3. Claims 42-71, drawn to an assay of associations between metabolites and phenotypes or genotypes of an organism, classified in class 702, subclass 19.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions 1-3 are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are drawn to methods with different steps that produce different results.
3. Because these inventions are distinct for the reasons given above and the search required for Groups 1-3 are not coextensive, restriction for examination purposes as indicated is proper.
4. This application contains claims directed to the following patentably distinct species of the claimed invention:
 - 1) For Groups 1-3, species of metabolic state listed in claims 7, 29, and 48, respectively.

2) For Groups 1-3, species of organism listed in claims 10-14, 32-36, and 51-55, respectively.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-6, 8, 9, 15-28, 30, 31, 37-47, 49, 50, and 56-71 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. A telephone call was made to William Warren on 15 August 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1631

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John S. Brusca whose telephone number is 703 308-4231. The examiner can normally be reached on M-F 8:30-5:00.
